

## Event Concept Note

# Quantifying climate change risk in humanitarian response

---

### Date and Time

Tuesday 7 March 1500-1600 CET

### Format

The webinar is fully virtual. Participants may register at <https://bit.ly/inform-climate>

### Overview

The event will present recent research into the future impacts of climate change on humanitarian crises and discuss how we can respond to them. Specifically, it will present findings from [INFORM Climate Change Index](#), which provides quantified estimates of the impacts of climate change on the future risk of humanitarian crises. The event will then examine how humanitarian donors and organisations can use this kind of data and information to support operational and policy responses to the humanitarian climate emergency.

### Speakers

Moderator - Quynh Nhu Tran, OCHA Policy Branch **Confirmed**

Tom de Groeve - Head, Disaster Risk Management Unit, European Commission Joint Research Centre **Confirmed**

Mark Skeith or Lauren Baker - USAID **One of confirmed**

Anna Lena Huhn - Regional Anticipatory Action Advisor at United Nations World Food Programme **Confirmed**

Asar Ul Haq Muhammad, IOM South Sudan - **Confirmed**

### Audience

The event is open to all who are interested. Decision-makers, policy-makers and technical staff across humanitarian and development organisations, governments and donors.

### Proposed Agenda [example below]

Time	Speaker	Focus
00:00 - 00:05	<b>Quynh Nhu Tran</b> OCHA Policy Branch	Opening remarks

00:05 - 00:20	<b>Tom de Groeve</b> - Head, Disaster Risk Management Unit, European Commission Joint Research Centre	INFORM Climate Change - Quantifying the impacts of climate and socio-economic trends on the risk of future humanitarian crises
00:20- 00:30	<b>Mark Skeith/Lauren Baker</b> - Senior Policy Analyst, USAID	Incorporating climate risks in humanitarian planning
00:30- 00:40	<b>Anna Lena Huhn</b> - Regional Anticipatory Action Advisor at United Nations World Food Programme	Reflections on climate change and anticipatory action in the Southern Africa Region
00:40- 00:50	<b>Asar Ul Haq Muhammad</b> - IOM South Sudan	Responding to climate impacts on humanitarian operations in Bentiu, South Sudan
00:40- 00:50	<b>Moderator - Quynh Nhu Tran</b>	Q&A / Discussion - Operational and policy responses to humanitarian impacts of climate change

### Expected Outcome

*Awareness / understanding of recent research that relates to predicting the impacts of climate change on humanitarian crises, how this work can be used in planning, and the broader operational and policy response, as well as links to work of the Centre for Humanitarian Data on data and risk analysis.*
